Columbus Statue Unveiling Slated For About Sept. 1

The unveiling of the Columbus monument in St. Marys Circle is being arranged tentatively to take place about Sept. 1, according to information from the committee in charge, following conference with Commissioner of Parks William A. Barry with regard to the completion of the parking work around the monument.

The heroic bronze statue, cast in Italy, mounted on granite also shipped from the land of the Genoese navigator, stands in place, shrouded from public view pending the official ceremonies on the occasion of its dedication.
