

# Drive Commenced To Finish Columbus Monument Project

Under the direction of a general committee whose membership includes civic and business leaders of Syracuse, a campaign is to be launched to raise the funds necessary for the completion of the Columbus monument on the site prepared in the circle at the intersection of Jefferson, Montgomery and Onondaga Streets.

Joseph J. Pietrafesa is general chairman and William T. McCaffery, president of the Lincoln Bank, is treasurer.

The memorial when completed will present a statue of Christopher Columbus 11½ feet in height on a pedestal rising 33 feet above the ground level. Around the pedestal will be a fountain-fed pool.
